

Hydrating Toner

Rids the skin of impurities, dirt, and dulling dead cells. Revitalizes and soothes skin, leaving it silky-smooth, satin-soft, and with a pleasant fresh feeling.

SP-HT

Suggested Use:

After cleansing, soak a large cotton ball or pad with Hydrating Toner and gently stroke over the face. Do not rinse off. Follow with moisturizer and/or specialty product.

Suggested Precautions:

For external use only. Avoid direct contact with eyes. Rinse with water if direct eye contact occurs. Do not use on broken skin. For adult use only. Keep out of reach of children. If swallowed, get medical help right away. Stop use and ask a doctor if rash or irritation develops and persists.

Key Ingredients:

Glycerin: Humectant-it attracts moisture to your skin

Sodium Ascorbyl Phosphate: stable vitamin C derivative; It protects the skin, promotes its development and improves its appearance; an effective antioxidant which protects the cells against damage caused by free radicals.

Sodium Hyaluronate: naturally-derived (biofermentation) material is produced with special attention to maintaining its high relative molecular weight. is made up of approx. 1,000 to 10,000 disaccharide units in the form of unbranched, long chains; Each disaccharide unit consists of one molecule each of glucuronic acid and N-acetylglucosamine; fills the space between collagenous and elastic fibres and the cells. It is particularly responsible for the visco-elastic characteristics of tissue, especially those of the skin.

Glycolic Acid: naturally occurring organic acids also known as Alpha Hydroxy Acids or AHAs; used as pH adjuster, exfoliator, and skin conditioning agent

Ingredients:

Deionized Water, Butylene Glycol, Glycerin, Aloe Barbadensis Leaf Juice, Rosa Centifolia Flower Water, Phenoxyethanol, Caprylyl Glycol, Sorbic Acid, Polysorbate 20, Camellia Sinensis (Green Tea) Extract, Glycyrrhiza Glabra (Licorice) Root Extract, Hydroxyethylcellulose, Sodium Ascorbyl Phosphate, Sodium Hyaluronate, Mentha Citrata (Bergamot) Leaf Extract , Disodium EDTA, Glycolic Acid
